Paul Shorey | ps@artspaces.net | paulshorey.com
UI/UX designer | web developer

03.2015 - 03.2016
<u>YouNow.com</u> **- Javascript Engineer**
A very promising and ambitious live-streaming social network. Watch for these guys in the news!
Scrum / Agile to collaborate with remote and in house team members
AngularJS + Javascript to develop new interfaces and optimize existing framework
SASS + Grunt to design and implement UI for user facing web app
Also used: Jasmine/Karma unit testing, Prerender.io SEO, Socket.io websockets, HTML5 streaming,
JIRA, Bitbucket, GIT, Bugsnag, JSON APIs, Angular UI, Bootstrap, UI-router, i18n translations

03.2014 - 03.2015
Freelance - Web Developer
<u>AllEvents.NYC</u> - highly responsive news portal, custom algorithms and cloud NodeJS/PhantomJS APIs
<u>iRokoTV.com</u> - worked on UI for an African video on demand platform
<u>AngularCMS.net</u> - built a full CMS as a single page AngularJS app, using Bootstrap and Angular UI
<u>ShienCosmetics.com</u> - custom, responsive Shopify.com e-commerce template
<u>CarteBlancheJazzBand.com</u> - visually striking interactive responsive website
Used: HTML5 Canvas, CSS3 styles, Grunt, Gulp, Bower, AngularJS, Bootstrap, PHP, MySQL, Apache,
NodeJS, PhantomJS, SCSS, HTML5 video, React, Sublime Text, GIT, Grunt, Adobe CC, Sketch

10.2009 - 03.2014
FocusFeatures.com - Lead FrontEnd Developer
Worked up over 5 years to lead development for a popular enterprise news site
Developed responsive and pixel-perfect web pages for editorial content of slideshows, behind the scenes
Developed a PHP framework to layout mini-site themes and content for each newly released film
Designed elements for the site when not enough direction was provided, especially for mobile devices
Built Google TV enabled service for smart televisions, controlled with only a remote
Visit: FocusFeatures.com /TV /LatestNews /Browse/movies /TheWorldsEnd /TheBoxTrolls
Used: Social APIs, oAuth, HTML5 video, jQuery tools, PHP, MySQL, SVN, Adobe Suite, Internet Explorer

05.2007 - 10.2009
Freelance - Graphic & Web Designer
Designed and built client websites, worked with Wordpress, Drupal, Joomla, developed a custom CMS

Graduated 2009
BFA Media Arts - Hartford Art School
Focused on graphic design and new media, as well as traditional art and business

Skills:
Design - Adobe CS, Sketch, SVG icons and fonts (custom and web services), responsive, video, new media
Development - prefer and excel at anything to do with DOM / HTML / JSON, including CSS / SASS / GRUNT, have
much experience in Javascript / JQuery / AngularJS / NodeJS, creating custom plugins and modules
Systems - experienced in PHP / MYSQL / Apache, but prefer NodeJS / MongoDB / Nginx
Looking for a position to marry my full-stack dev experience or any part of it, with my creative predisposition
